Three Qualities

“Mendicants, when ladies have three qualities, when their body breaks up, after death, they are mostly reborn in a place of loss, a bad place, the underworld, hell. What three?

A lady lives at home with heart full of the stain of stinginess in the morning, jealousy in the afternoon, and sexual desire in the evening.

When ladies possess these three qualities, when their body breaks up, after death, they are mostly reborn in a place of loss, a bad place, the underworld, hell.”
