13. Sick

A Carer (2nd)

“Mendicants, a carer with five qualities is not competent to care for a patient. What five? They’re unable to prepare medicine. They don’t know what is suitable and unsuitable, so they supply what is unsuitable and remove what is suitable. They care for the sick for the sake of material benefits, not out of love. They’re disgusted to remove feces, urine, vomit, or spit. They’re unable to educate, encourage, fire up, and inspire the patient with a Dhamma talk from time to time. A carer with these five qualities is not competent to care for a patient.
